Shiv Vani Model Senior Secondary School - New Delhi

PROJECTS

Market Research & Consumer Insights Projects (30+ Projects), Executed over 30 data-driven projects during a data analyst internship, focusing on large-scale consumer survey analysis across industries., Key project highlights include:, Ice Cream Brand Preference Analysis using Quantum & SPSS, Processed raw survey data from 1,000+ respondents to assess consumer sentiment toward multiple ice cream brands. Used Quantum for data preparation and SPSS for statistical analysis., Wrote custom scripts to segment data by city zones, age groups, and consumer preferences, and automated the generation of interactive Excel reports. This enabled clients to efficiently analyze market trends and brand perception across demographics., Delivered similar projects across various sectors, applying data transformation, cross-tab analysis, segmentation modeling, and report automation to drive actionable business insights., Focused on improving data accessibility and decision-making for clients by designing intuitive Excel dashboards with filtered views and summary KPIs.
